

Fact sheet

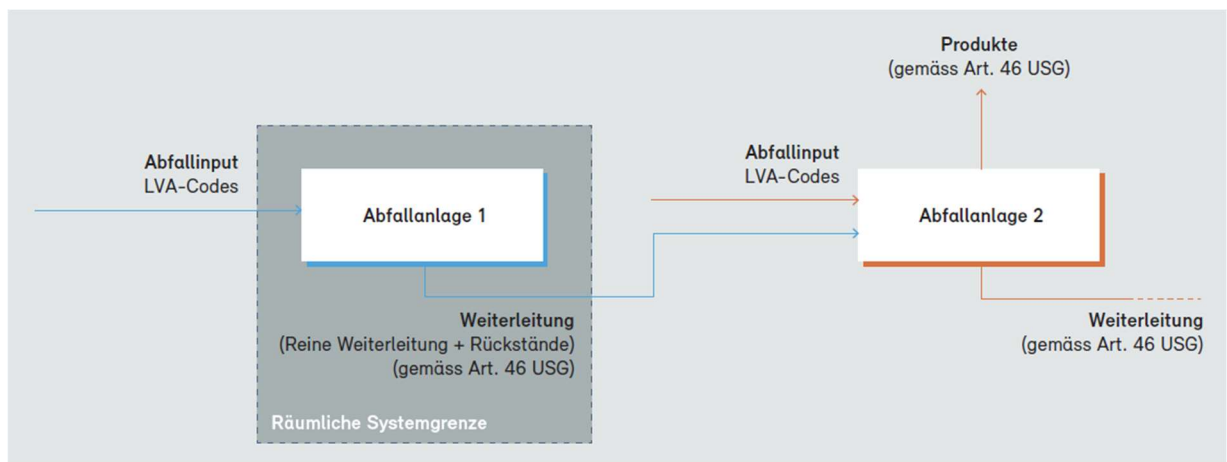

DETEC eGov ADWO reporting: Disposal of metal waste not subject to regulatory controls (nk)

Reference no.: BAFU-342.3-1577/8/19/1

Version: 28 September 2022

1. This fact sheet is designed to ensure a harmonised and simplified recording of metal wastes for ADWO reporting on the eGovernment portal (eGov). This choice, made in consultation with the cantons and the recycling association VSMR, makes it possible to fully record the waste not subject to regulatory controls (nk) of a waste disposal plant that receives and/or forwards metal wastes. The facility can thus cover its minimum reporting requirements; more detailed recording beyond this is of course also possible.
For publication of the data, the FOEN will assign the existing and any additional LVA codes entered to the corresponding ADWO codes.

2. Outline of system boundaries according to the [ADWO implementation guide for reporting](#)

3. Code selection for the annual waste reporting [nk] on the eGov portal for municipal incinerators when receiving waste:

LVA 20 01 40 [nk] Metals from the separate collection of domestic waste
Allocated to ADWO 3301 (Metals; from communal and other collections [nk])

LVA 17 04 07 [nk] Mixed metals from construction waste
Allocated to ADWO 3302 (Metals; metallic waste not subject to regulatory controls [nk])

LVA 19 12 02 [nk] Ferrous metals

Allocated to ADWO 3302 (Metals; metallic wastes not subject to controls under VeVA [nk])
From the mechanical treatment of waste (e.g. sorting, crushing, compacting, pelletising) not otherwise specified (also shearing)

LVA 19 12 03 [nk] Non-ferrous metals

Allocated to ADWO 3302 (Metals; metallic wastes not subject to controls under VeVA [nk])
From the mechanical treatment of waste (e.g. sorting, crushing, compacting, pelletising) not otherwise specified (also shearing)

4. Code selection for the annual waste reporting [nk] on the eGov portal for municipal incinerators when forwarding waste:

LVA 19 12 02 [nk] Ferrous metals

Allocated to ADWO 3302 (Metals; metallic wastes not subject to controls under VeVA [nk])
From the mechanical treatment of waste (e.g. sorting, crushing, compacting, pelletising) not otherwise specified (also shearing)

LVA 19 12 03 [nk] Non-ferrous metals

Allocated to ADWO 3302 (Metals; metallic wastes not subject to controls under VeVA [nk])
From the mechanical treatment of waste (e.g. sorting, crushing, compacting, pelletising) not otherwise specified (also shearing)
